Report to Congressional Committees

2011 Military Working Dog Adoption Report

December 2011

Introduction

This report is provided to Congress annually. The report provides the number of Military Working Dogs (MWDs) adopted, transferred, or awaiting adoption, and the number of MWDs euthanized during the preceding year. This report also explains why some MWDs were euthanized rather than transferred to other governmental or civil law enforcement agencies or retained for adoption.

Executive Summary

The total number of MWDs leaving the DoD inventory for all causes (adoptions, transfers, euthanasia, and natural deaths) was 444.

In CY11, 328 former MWDs were adopted or transferred. Private individuals adopted 276 MWDs, and 52 MWDs were transferred from the Department of Defense (DoD) to other government or law enforcement agencies for continued public service.

A total of 116 MWDs died while serving on active duty. Of these, 34 MWDs died of natural causes, 2 died from mishaps, 14 puppy program dogs were killed by their mother several days after birth, 44 MWDs were euthanized to prevent suffering from debilitating medical conditions and 16 MWDs were euthanized because they were unsuitable for law enforcement transfer and too dangerous for adoption, 7 MWDs were killed in action, and 1 MWD was reported missing in action.

*No dogs
adoptable
not adopted*

An additional 44 MWDs (not included in the 444) are still part of the DoD inventory, but were declared excess to DoD requirements and are pending disposition.

Report

10 U. S. Code 2583 permits the adoption of retired MWDs by law enforcement agencies, former handlers or by other persons capable of caring for these dogs. The Secretary of the Military Department may make an MWD available for adoption at the end of the dog's useful working career, or before the end of the animal's useful career if such Secretary, in such Secretary's discretion, determines that unusual or extraordinary circumstances justify making the animal available for adoption before that time, or when the dog exceeds the needs of the department, unless determined unsafe for adoption.

A requirement of 10 USC 2583 is for the Secretary of Defense to submit an annual report to Congress specifying the number of MWDs adopted, currently awaiting adoption, and the number of dogs euthanized during the preceding year. The report must include an explanation of the reasons why the MWDs were euthanized rather than retained for adoption.
